Meet Blue Faery Board Member Marina Uchenik

Born in a small town near Kiev, Russia, Marina Uchenik moved to Southern California when she was 18 months old. She met Adrienne Wilson in sixth grade at Luther Burbank Middle School, and they remained friends even after Marina moved to another school district. Marina obtained her bachelor's degree in applied math from California State University, Northridge, and she works as a lead teller for Wells Fargo Bank. However, she desires a managerial position in the statistics/analytics field because she loves numbers. In her spare time, she exercises, watches movies, and walks her Yorkshire Terrier Grizzly.

Due to her friendship with Adrienne, Marina became a Blue Faery volunteer at age 15 and a board member at age 18. She finds the current progress in clinical trials very interesting and hopeful for liver cancer patients. She enjoys being involved with Blue Faery because she wants to help people not only become well but also feel better about their diagnosis. Marina encourages patients and doctors to participate in Blue Faery's programs such as our [HCC patient education brochures](#) and our [Blue Faery Award](#) because they are valuable resources.
